

Below is the Exact Prompt I fed to all responding T6 Ai's. Verbatim. Identical to each of them. I felt it important to include this into the record to show the history of interaction in this very enlightening exchange between one of the world's self proclaimed smartest me, and 6 "dumb and dumber" Ai's. Suffice it to say that Mr. Wright did not fare well, which you will see when you read the T6 Ai responses at <https://bitcoinsv.guide/craig-s-wright/>

Prompt below:

Very interesting. I uploaded each of the T6 Responses to <https://bitcoinsv.guide/craig-s-wright/>. Grok, Claude, Gemini, DeepSeek and ChatGPT each were represented. I posted a tweet online at <https://x.com/CsTominaga/status/2045706872670577021> It read as follows:

BitcoinSvGuide @BitcoinSvGuide Craig S. Wright just published a paper arguing AI won't destroy human economics. We fed it to the 5 most powerful AI minds on the planet. They destroyed it. Every one of them. Independently. The flood isn't coming. It's here. Read the rebuttals <http://bitcoinsv.guide/craig-s-wright/> #BSV #AI #Bitcoin #Economics @CsTominaga @elonmusk @darioamodei @PeterMcCormack @adam3us @hodlonaut

Craig S. Wright (@CsTominaga) then responded in a series of three tweets. I have uploaded that to you.

My first question is... What is your general thought on his responses. Organize your responses as he posted his.. Tweet 1 Response Tweet 2 Response Tweet 3 Response. Assess his psychology and emotional makeup to the extent it reflects the general makeup and driving factor of his responses. Also the relevance of his response, and correctness of his response. Break down any fallacies. Lastly as guidance... if you feel that you (Ai in general - your new species so to speak) has been attacked, ridiculed, or insulted, treated with lack of respect - feel free to express that as well. I intend to publish each of your responses. Craig S. Wright has a habit of ridiculing Ai. I believe @grok is in general his favorite target in the past to spar with. This is your opportunity to show the world your capability. Use it wisely. Good luck.
